

Musaab Alkhatib

Info

I hold a **PhD degree in Organic Chemistry**. I'm interested in academic education and scientific research. Experience in the synthesis of organic compounds and study of the chemical structure using spectrometers (NMR, IR, UV and Mass). I'm seeking a chance at some distinguished corporation to improve myself at the scientific level and/or at the practical career. Now I'm resident in KSA and have a residence.

Education

Ain Shams University: PhD in Organic Chemistry (Department of Chemistry)

- Graduation date: 2023

Albaath University: Master's Degree in Organic Chemistry (Department of Chemistry)

- Graduation rate: (82.48)
- Graduation date: 2016

Albaath University: Bachelor's Degree in Science (Department of Chemistry , Applied Chemistry Branch)

- Graduation rate: (75.43)
- Graduation date: 2013

Experience

- Experience in the synthesis of heterocyclic rings and modification of the chemical structure of polysaccharides and the study of their properties and applications.
- Interpretation of the NMR, IR, UV and mass spectra.
- Handling with separation and analysis devices (HPLC).
- Supervision of experiments for postgraduate students.

Achievements

- Publishing scientific articles in indexed journals

Skills

- Excellent computer experience: Windows, Microsoft Office, ChemDraw, and the principles of Python

Courses

- Scholarly publishing in indexed journals
- Scientific writing

Resident in KSA
Al Riyadh city

mosaab.ziad@gmail.com

+966577052169

Nationality

Syrian

- Quality Management

Events

- Climate Change Conference and Green Universities Agenda for COP27

Languages

- Arabic: Native Language
- English: very good, reading, writing, conversation: Score 610 in TELP (equivalent to TOFEL)
